

Every beautiful paint job begins with a solid foundation

Introducing the new SATAjet 100 B RP Sealer gun

Launching in conjunction with Axalta's new Spies Hecker waterborne 2K Sealer

German Engineering

SATAjet 100 B F RP Sealer

Spray gun #1100015

Nozzle Set #1099573

Spies Hecker Permahyd 2K Waterborne Sealer 5650 Tech Tips:

Mix Ratio 1 Part Sealer : 5% Hardener

Optional 0-10% VE6000 (When using the SATAjet 100 B RP Sealer setup, reduction is not necessary until humidity is below 20% with elevated temperatures.)

Spray Gun Pressure: 24-26 psi for standard application /
20-24 for low humidity application without reduction

Flash Time: As fast as 3-5 minutes when using a SATA dry jet 2
air amplifier

RPS Cup Recommendations: Utilize the blue 125 micron strainers
