#### Product and Brand Piracy Counterfeit Spray Guns

In China, a number of spray guns that have not been manufactured by WALTHER PILOT are currently being marketed under the brand name WALTHER PILOT. The spray guns are counterfeit reproductions of the current SATA models. In conjunction with SATA, Kornwestheim, various measures have been taken against this product piracy and legal proceedings have been instigated. The activities of this Chinese plagiarist will on no account be tolerated. Investigations carried out so far have revealed the company responsible to be a trading company with its own expanding network of dealers. Two companies, XIN Rong International Trading (KunShan) Co. Ltd. and Shanghai Huo Rong industrial Co. Ltd. infringing the product rights of SATA and the trademark rights of WALTHER PILOT. Certificates identifying XIN RONG or HUO RONG as a WALTHER PILOT dealer in China are forgeries. WALTHER PILOT expressly emphasises that it has no business relations whatsoever with XIN RONG and HUO RONG.
