SATAjet® 4000 B

Spray Guns | Cup Systems | Breathing Protection | Air Filtration | Accessories

Made for the Best
The SATAjet® 4000 B features state-of-the-art technology, the spray gun has been optimised with the passion for precision so typical of SATA as well as undergoing intensive practical tests. The result: a soft spray pattern which is second to none, perfect ergonomics and outstanding atomisation for excellent finishes.

**Improved ergonomics, lighter, higher precision**

SATAjet 4000 B, due to its ergonomically formed gun handle, fits like a glove. We have reduced its weight by 15% compared to the previous model. In addition, we have lowered the centre of gravity of the spray gun by a great deal for the benefit of the painter.

**Improved control elements.**

With just a quarter turn of the round/flat spray control, the spray fan can be precisely adapted to the shape of the object. For safer and even more comfortable paint application.

**Softer: The nozzle concept**

The nozzle concept of the SATAjet 4000 B has been enhanced to meet the requirements of modern paint systems. Providing a uniform and perfectly shaped spray fan, the material lays down softly and evenly. The noise level has been reduced by up to 50%. Highest colour match precision, high gloss and uniform paint distribution ensure brilliant finishes at rapid application speed.
Two ways to achieve a perfect result: HVLP and RP®

The "Super Saver" SATAjet 5000 B HVLP achieves particularly high transfer rates, due to its low pressure technology.

The "Super Speed" SATAjet B RP with its optimised high pressure technology for maximum application speed and minimum over-spray.

Both versions are extremely versatile in application, meeting highest expectations concerning excellent finishes, while far exceeding 65% transfer efficiency rates in accordance with VOC legislation.
Superior in All Fields of Application – SATAjet 4000 B

With the SATAjet 4000 B, you can achieve perfect finishes with all available paint systems:
Whether it be in car refinish, commercial transportation, coating furniture, marine yachts or high quality industrial components.

Whether for basecoat, clear coat or single stage material, please ask your SATA dealer or consult our website for the correct nozzle size:

Accessories:

**SATA® adam 2™**
Converts a non-digital spray gun into a “DIGITAL” – for retro-fitting SATA spray guns without integrated digital pressure gauge. Ensures correct setting and display of the gun inlet pressure for highest colour match precision.
Art. No. 160846

**SATA® cert™**
Prevent rework before it occurs – with the regular checking of the spray pattern.
Art. No. 161596

**SATA® RPS®**
Replaces reusable plastic cups and fits on the SATA spray guns without adapter. Reduces cleaning effort and helps save solvents. Available sizes: 0.3 l, 0.6 l and 0.9 l.
Art. No. upon request

**SATA® care set™**
The practical tool bag containing useful utensils for gun cleaning and maintenance. Items marked with a red surround are not included in the scope of delivery.
Art. No. 162628

Further useful accessories like air hoses, respirators, compressed air filters etc. are available from your SATA dealer.
